

OFS Launches New FOX SOLUTIONS® Home and Business Solution Guides

Comprehensive Portfolio of Solutions Optimized for FTTX Deployments

FTTH Europe, Stand S6, Warsaw, Poland, 9. February 2015 - OFS, a leading designer, manufacturer and supplier of innovative fibre optic network products announces a Home and Business Solution Guide for OFS' FOX Solution® FTTX offering. The consultative guide can help customers easily customize a solution that meets their unique FTTX requirements for successful deployment of fiber to and into homes and businesses.

Each FTTX deployment faces unique business challenges. OFS FTTX Solution experts have experience deploying and providing solutions for large and small carriers alike and apply that knowledge to help each customer identify the solution that best meets their needs. FTTX network investment should be optimized to cost-effectively and reliably meet these needs over many decades and network upgrades. OFS leverages its FTTX design and systems knowledge, and its product lines and technologies across fiber, cable and connectivity to create customized solutions for a broad base of customers globally. With a broad range of its products and solutions installed in service provider networks, municipalities and utility company networks, many offering Gigabit service to the home, OFS has over a decade of experience in FTTX deployment around the world providing leading products and solutions from the network operations center all the way into the living unit.

"OFS continues to add new products and solutions for its global customers under the FOX Solution Home and Business brand," says Anurag Jain, Senior Marketing Manager for OFS. "With every region and market segment having unique requirements, OFS has integrated and simplified an FTTH solution set of OFS fiber, cable and connectivity in a single solution guide to help our customers and channel business partners to understand, identify and deploy the right solution."

Products and solutions from the FOX Solution portfolio, product demonstration videos and a turnkey customer testimonial video will be shown at the OFS Stand S6, FTTH Conference in Warsaw, Poland 10-12 February.

About OFS

OFS is a world-leading designer, manufacturer and provider of optical fibre, optical fibre cable, connectivity, FTTX and specialty photonics solutions. Our marketing, sales, manufacturing and research teams provide forward-looking, innovative products and solutions in areas including Telecommunications, Medicine, Industrial Automation, Sensing, Government, Aerospace and Defense applications. We provide reliable, cost effective optical solutions to enable our customers to meet the needs of today's and tomorrow's digital and energy consumers and businesses.

OFS' corporate lineage dates back to 1876 and includes technology powerhouses such as AT&T and Lucent Technologies. Today, OFS is owned by Furukawa Electric, a multi-billion dollar global leader in optical communications.
