

**Dr. Timothy F. Murray, CEO and Chairman of OFS to participate on Executive Panel at FTTH Europe Conference**

**FTTH Europe, Stand S6, Warsaw, Poland, 10. February 2015** - OFS, a leading designer, manufacturer and supplier of innovative fibre optic network products announces that Dr. Timothy F. Murray, CEO and Chairman of OFS, will be part of the Executive Panel from 12:00 to 13:00 on 11. February at the 2015 FTTH Conference.

The Executive Panel will present the points of view of top operator and industry leaders on the future role of FTTH in Europe and globally. Dr. Murray and his fellow panelists will discuss the need for fibre as a foundation for a competitive Europe.

“I look forward to participating in this event and discussing the important role of high-speed broadband for the global market with industry colleagues,” said Dr. Murray. “High bandwidth is a necessity not just for the future but also for today. Applications requiring gigabit connections to fully enjoy the benefits are integrated into people’s lives and change the expectations of a desirable place to live and work. FTTH offers and will continue to offer the highest bandwidth, most future-proof way to provide that connection.”

**About OFS**

OFS is a world-leading designer, manufacturer and provider of optical fibre, optical fibre cable, connectivity, FTTX and specialty photonics solutions. Our marketing, sales, manufacturing and research teams provide forward-looking, innovative products and solutions in areas including Telecommunications, Medicine, Industrial Automation, Sensing, Government, Aerospace and Defense applications. We provide reliable, cost effective optical solutions to enable our customers to meet the needs of today’s and tomorrow’s digital and energy consumers and businesses.

OFS' corporate lineage dates back to 1876 and includes technology powerhouses such as AT&T and Lucent Technologies. Today, OFS is owned by Furukawa Electric, a multi-billion dollar global leader in optical communications.
