

The components in these packages are used to strain relieve and moisture seal Outside Plant Cable entering cable facilities. The D-182655 Kit of Parts contains ¾-inch NPT-Type Cord Connectors, whereas, the D-182656 and D-182657 Kit of Parts contain 1-inch NPT-Type Cord Connectors (for Preterminated Cable).

### **D-182655 KIT OF PARTS (COMCODE 106690142)**

- One (1) ¾-inch NPT-Type Cord Connector (contains a Compression Gland that accommodates a cable diameter range of 0.511¾ 0.708 inches)
- One (1) Compression Gland that accommodates a cable diameter range of 0.354¾ 0.629 inches (available in a standard ¾-inch NPT Cord Connector)
- One (1) Compression Gland that accommodates a cable diameter range of 0.236¾ 0.472 inches
- One (1) Sealing Ring
- One (1) Locknut.

**Figure 1. D-Kit Parts**

The D-182656 and D-182657 Kit of Parts contain 1-inch NPT-Type Cord Connectors for Preterminated Cable. Components contained in each kit are as follows:

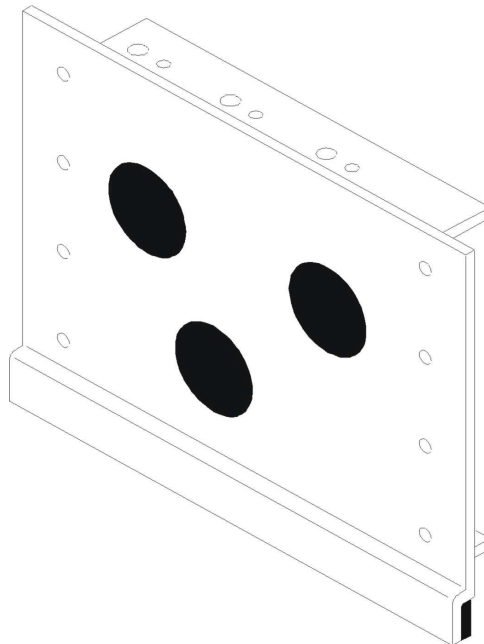

### **D-182656 KIT OF PARTS (COMCODE 106 690 159)**

- One (1) 1-inch NPT-Type Cord Connector (contains a Compression Gland that accommodates a cable diameter range of 0.709¾ 1.024 inches)
- One (1) Sealing Ring
- One (1) Locknut
- One (1) 846887917, Plate, SubAssembly (see figure below). This SubAssembly goes in the space that two (2) Regular Shingles occupy.

### **D-182657 KIT OF PARTS (COMCODE 106 690 167)**

This Kit contains two (2) packages, each package contains the following items:

- One (1) 1-inch NPT-Type Cord Connector (contains a Compression Gland that accommodates a cable diameter range of 0.709¾ 1.024 inches)
- One (1) Sealing Ring
- One (1) Locknut.
