## InvisiLight® EZ-Hide Reel Behind-the-Wall Solution

Pre-terminated FTTx Behind-the-Wall Solution for Easy and Aesthetics Friendly Deployment in Living Unit

**InvisiLight EZ-Hide Reel  
Behind-the-Wall Solution**

**InvisiLight EZ-Hide Reel  
Behind-the-Wall Solution (Front)  
and Components**

### Key Features

- Flush faceplate installation on the wall; InvisiLight spool is installed behind the wall
- SC Adapter standard, LC connectivity available: Safe and easy connection for the ONT jumper
- The Behind-the-wall reel fits inside common 20 cubic inch gang boxes
- Handles up to 40 meters of InvisiLight Optical Fiber and the slack management for tight buffer optical fiber and the ONT jumper
- RoHS-compliant; free from heavy metals and environmentally friendly
- The Behind-the-wall reel fits inside common 18+ cubic inch single gang boxes (Compatible with: Carlon B120R, Pass & Seymour S118W, and other single gang boxes 18+ cu in.)

### Product Description

The InvisiLight EZ-Hide Behind-the-Wall Solution provides a flush and integrated behind-the-wall concept in order to offer an optical connection point. The product set is composed of:

- A semi-flush adapter face plate accepting one or two SC adapters
- The reel contains a base and cover to support a 40 meter 600  $\mu\text{m}$  fiber spool. This reel can aid payoff during installation and for storage behind the wall
- A 40-meter spool of EZ-Bend 600  $\mu\text{m}$  fiber terminated with SCA or LC connectors
- Mounting - includes hook and loop adhesive square
