## 1. General Information

### 1.1. Product Description

Slimbox Underground Terminal is an external use product for installation in underground or overhead networks (pole/wall).

### 1.2. Features

- Mechanical Sealing for ports
- Supports up to 3 trays of 16 optical splices each, totaling 48 fibers as maximum capacity and one tray for 16 connections of distribution cables.
- **You must observe precautions when handling cables and optical cords. It applies in particular when handling bare optical fiber**

## 2. Care and Safety

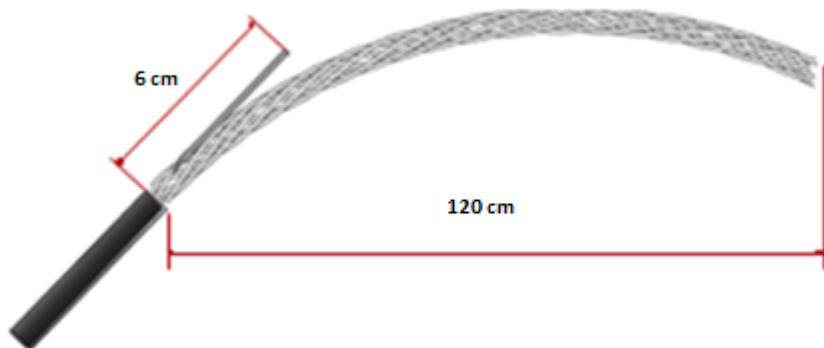

- During routing cables inside the enclosure, do not exceed fiber-bending radius. Pay attention to any possible cables interface with enclosure components while opening and closing it.
- Optical connectors must be clean before every reconnection.
- Stay alert for laser radiation warnings, do not manipulate connectors when lasers are on and especially do not look into connector light emitting end.

**4**

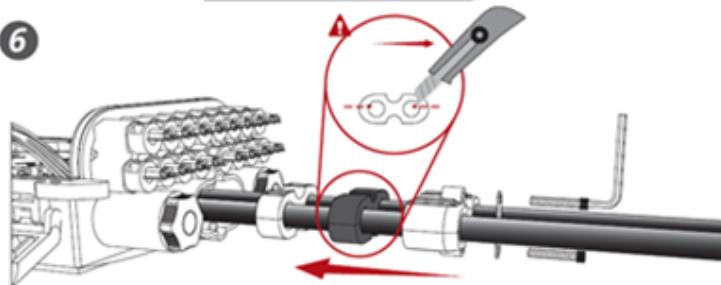

**5**

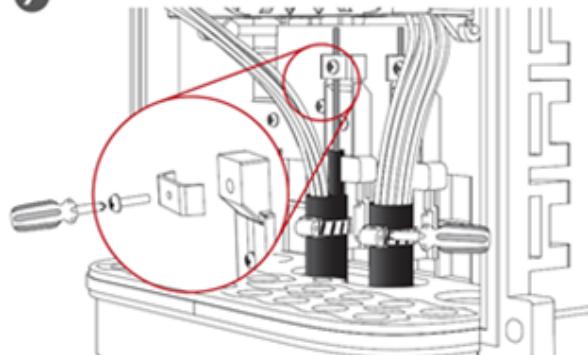

For diameters less than 10mm, use  
an adhesive tape

For diameters less than 10mm,  
use adhesive tape

**6**

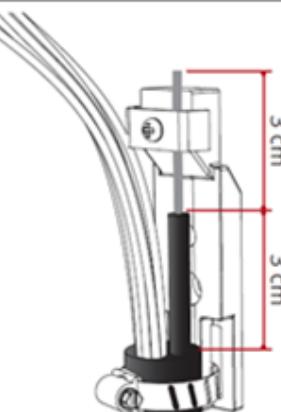

**7**

**EN**

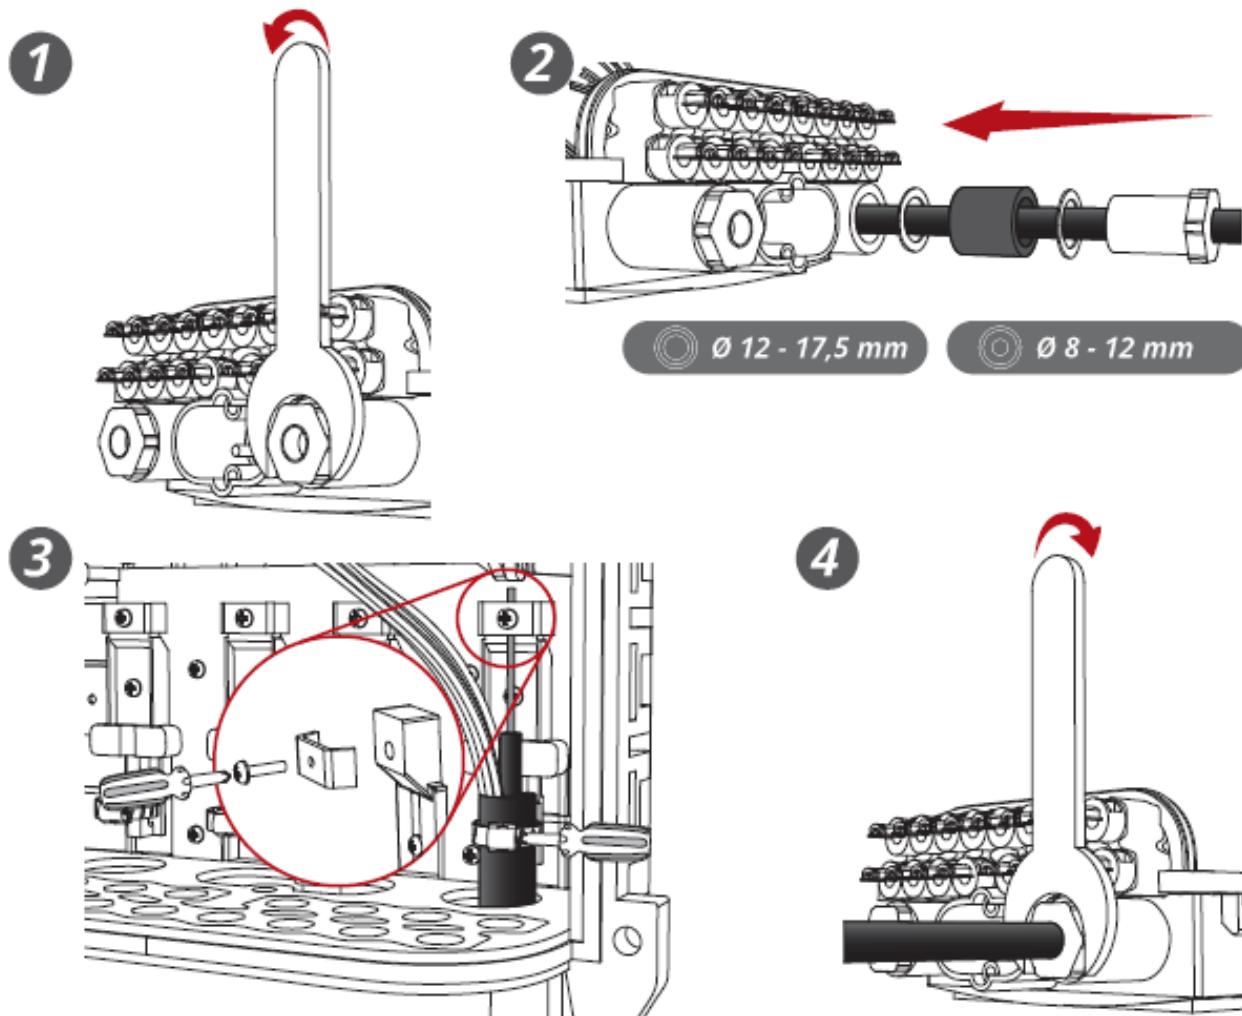

For coated strength  
members, leave 3 cm  
uncoated length and  
3 cm coated length

**04**

## 6. Distribution Cables

Use the Distribution Cable Kit (purchased separately)

**INSTRUCTIONS**

**11. Closing of the Fiber Optic Splice Closure**

**12. Pressurization Test**

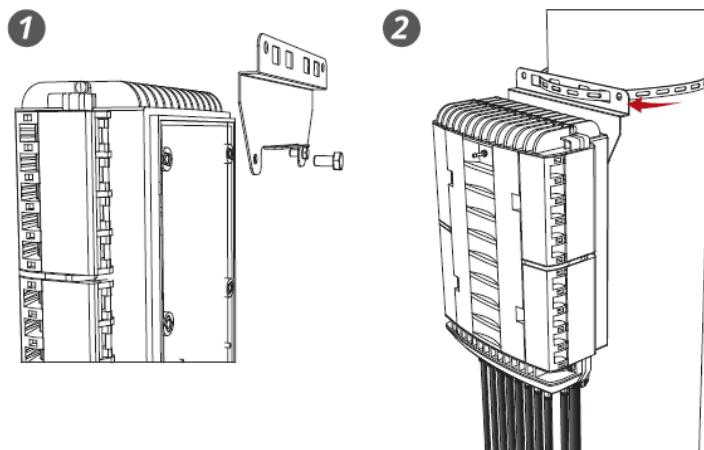

- Adjust the pressure to 40 kPa (5.8 psi) and submerge the closure in an appropriate container filled with water. In case of the appearance of air bubbles, review the mounting of the grommets, cables and the closure.
- Check pressure loss after 5 minutes

**INSTRUCTIONS**

**14. Components**

Note: Quantities is listed between brackets ()

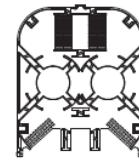

**15. Products to be purchased separately**

- Distribution Cable Kit

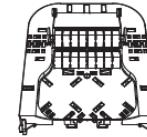

- Trays
  - For more than 16 splices

- The limit is 3 trays and 48 splices
- Splice tray 16F
- For Drop Cable Installation

- 1 connector tray with 8 (or 16) SC/APC adapters

## **16. Disposal of packaging and product**

Separate and recycle the components packaging and the product at the end of its life.

Non-recyclable parts must be disposed according to local regulations

## **17. Technical Assistance**
