

### **S315 Single Fiber Cleaver: Data sheet**

S315 Single Fiber Cleavers are designed for cleaving fiber in the field quickly and easily. S315 can accommodate 0.25 mm and 0.9 mm coating diameters and their small lightweight size makes them the perfect addition to any field splicing system. S315 require some skill to achieve the desired cleave angle and may not be appropriate for some splicing applications. S315 has a graduated scale, which allows for cleave lengths of 5 to 20 mm.

#### SPECIFICATION

Applicable optical fiber	0.25 mm and 0.9 mm coating diameter, 0.125 mm clad diameter.
Dimensions	20 W × 125 D × 42 H mm
Weight	65 g

#### APPEARANCE

Appearance of S315
